

Concept

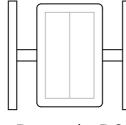

The new AudioNec Evo Speaker line, implements the new wideband driver "Duopole DS" whose height is 31 cm. This new driver benefits from the qualities of its elder, the intrinsic qualities of Duopole drivers have allowed AudioNec to be at the top of the qualitative pyramid in terms of sound reproduction.

As its name suggests, the new Evo range introduces the concept of speaker system scalability thanks to the smaller Duopole height, it opens the door to modular speakers. This new range offers 4 levels, ranging from a solution costing less than 20 K to a non-standard system without compromise. These four levels are designed in a modular way so that the user can build his speaker system by acquiring a starting set and later complete with one or more modules to achieve a superior system. Audiophiles being by nature on the quest for the Grail, they are constantly trying to climb the steps of sound reproduction. So from a more affordable starting point, AudioNec offers its customers the opportunity to "Grow" their speaker system over the years to reach the very best sound reproduction quality one can dream of.

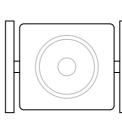

The basic Evo Speakers implement passive crossovers that allow bi-amplification.

The "AS" versions correspond to "Active Subwoofer", for which the Woofers and/or Subwoofers are amplified and filtered actively.

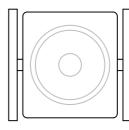

The Signature versions implement the AudioNec DSPV4 which offers system optimization, acoustic room correction, digital crossovers, low amplification.

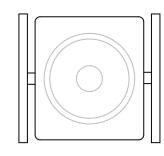

Duopole DS

Low 22cm

Sub 28cm

Sub 38cm

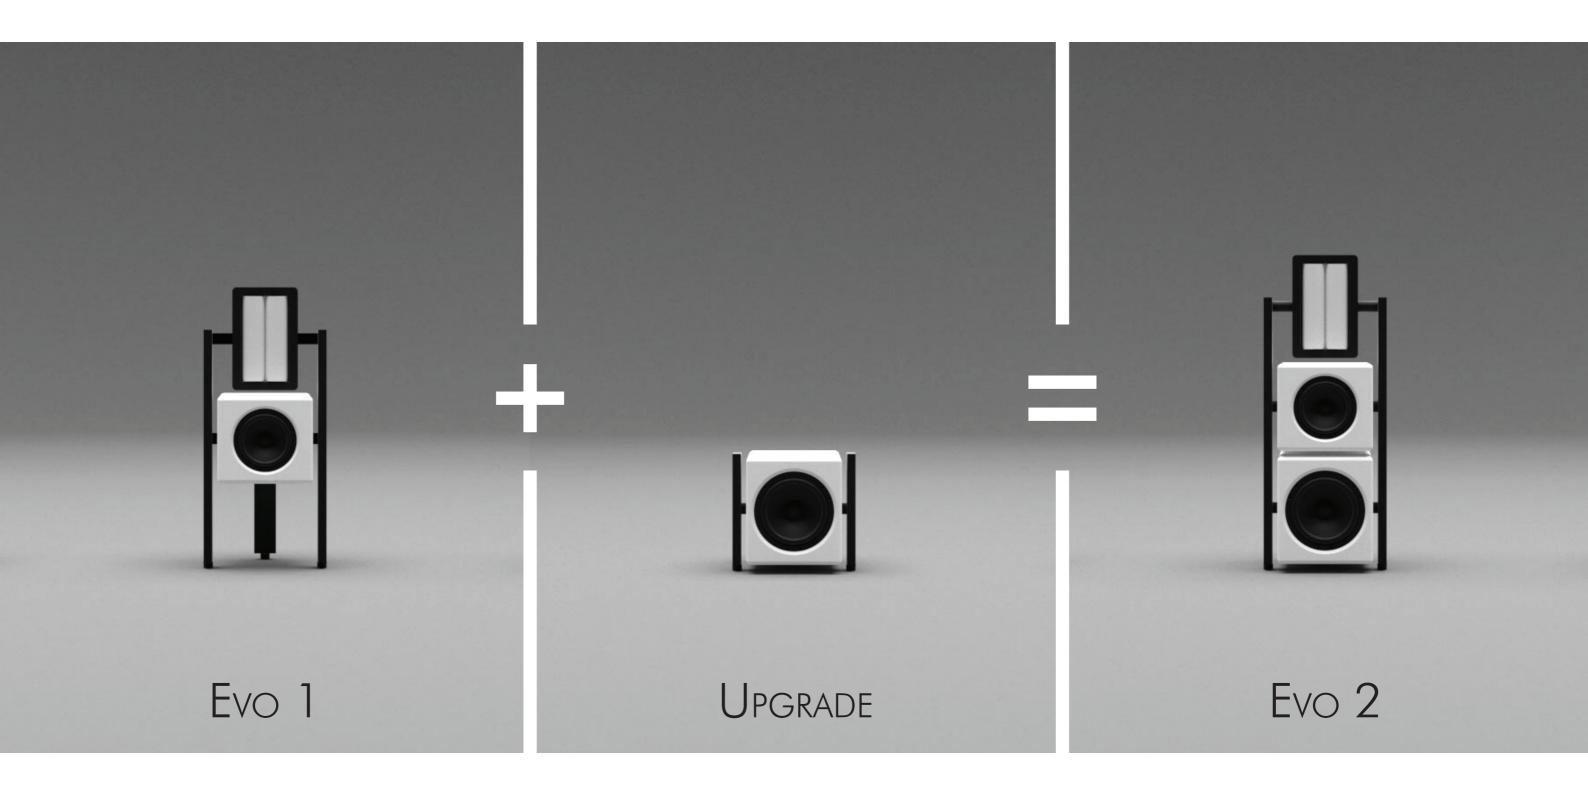

Duopole DS **400 Hz - 25 kHz** Low 22 cm **35 Hz - 400 Hz** Evo 1

Impedance 6 Ohms
Sensitivity 89 dB
Weight 58 kg
Dimensions 45 x 85 x 47cm
(W x H x D)

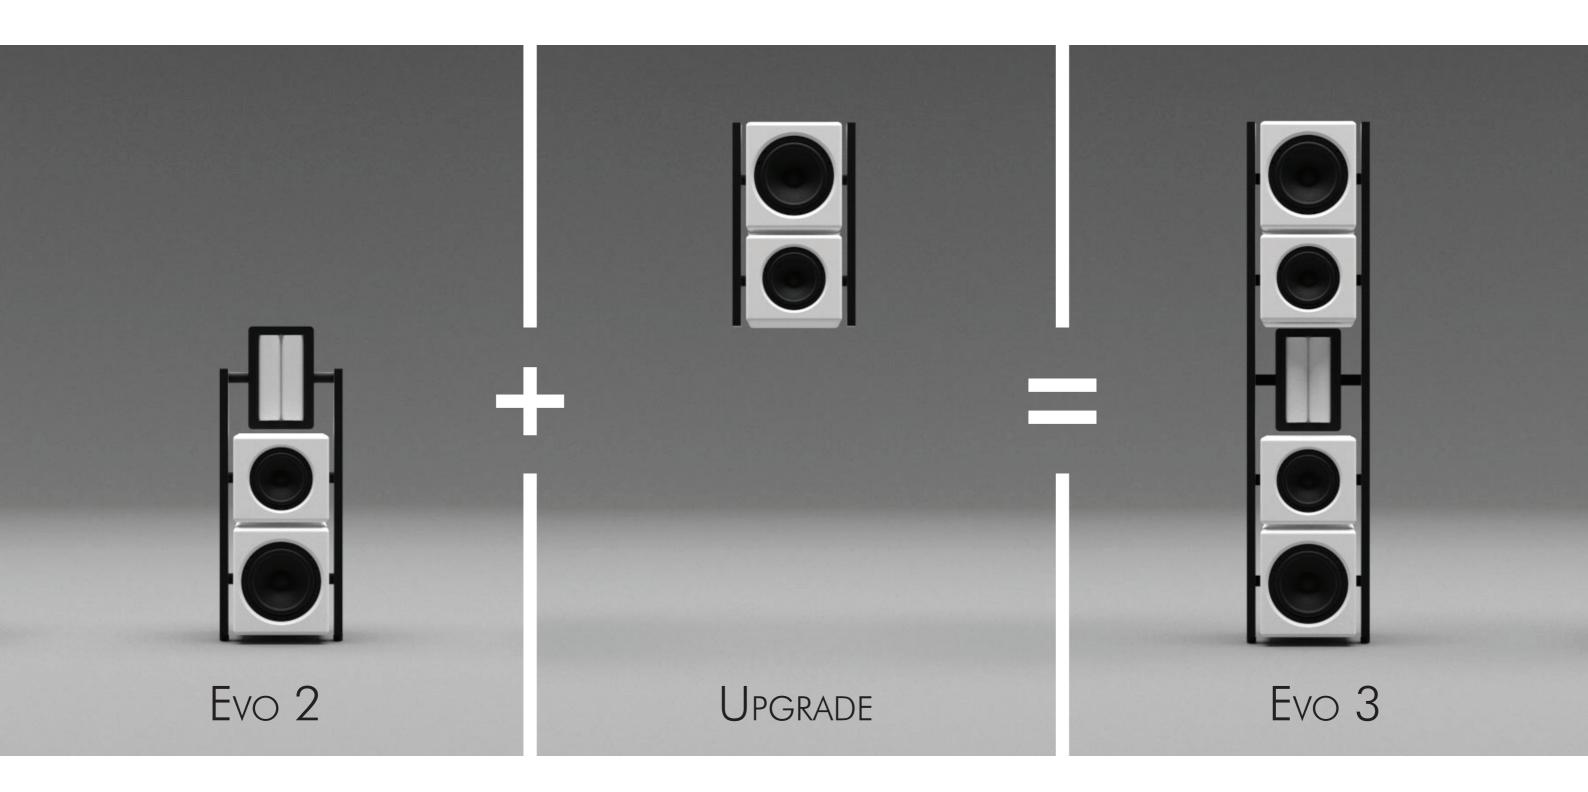

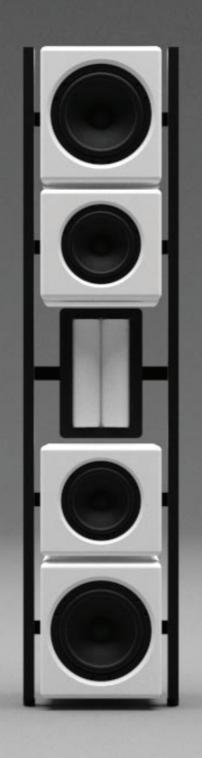

Duopole DS 400 Hz - 25 kHz Low 22 cm 35 Hz - 400 Hz Sub 28 cm 18 Hz - 35 Hz

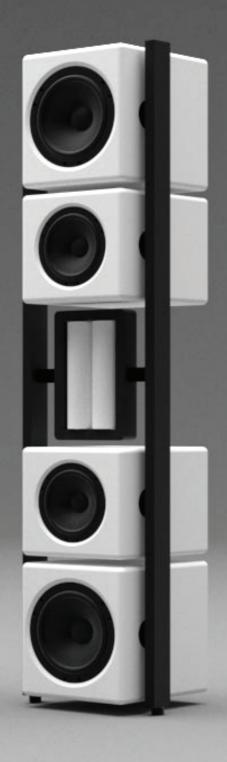

Evo 2

Impedance 6 Ohms
Sensitivity 88 dB
Weight 76 kg
Dimension 45 x 112 x 47 cm
(W x H x D)

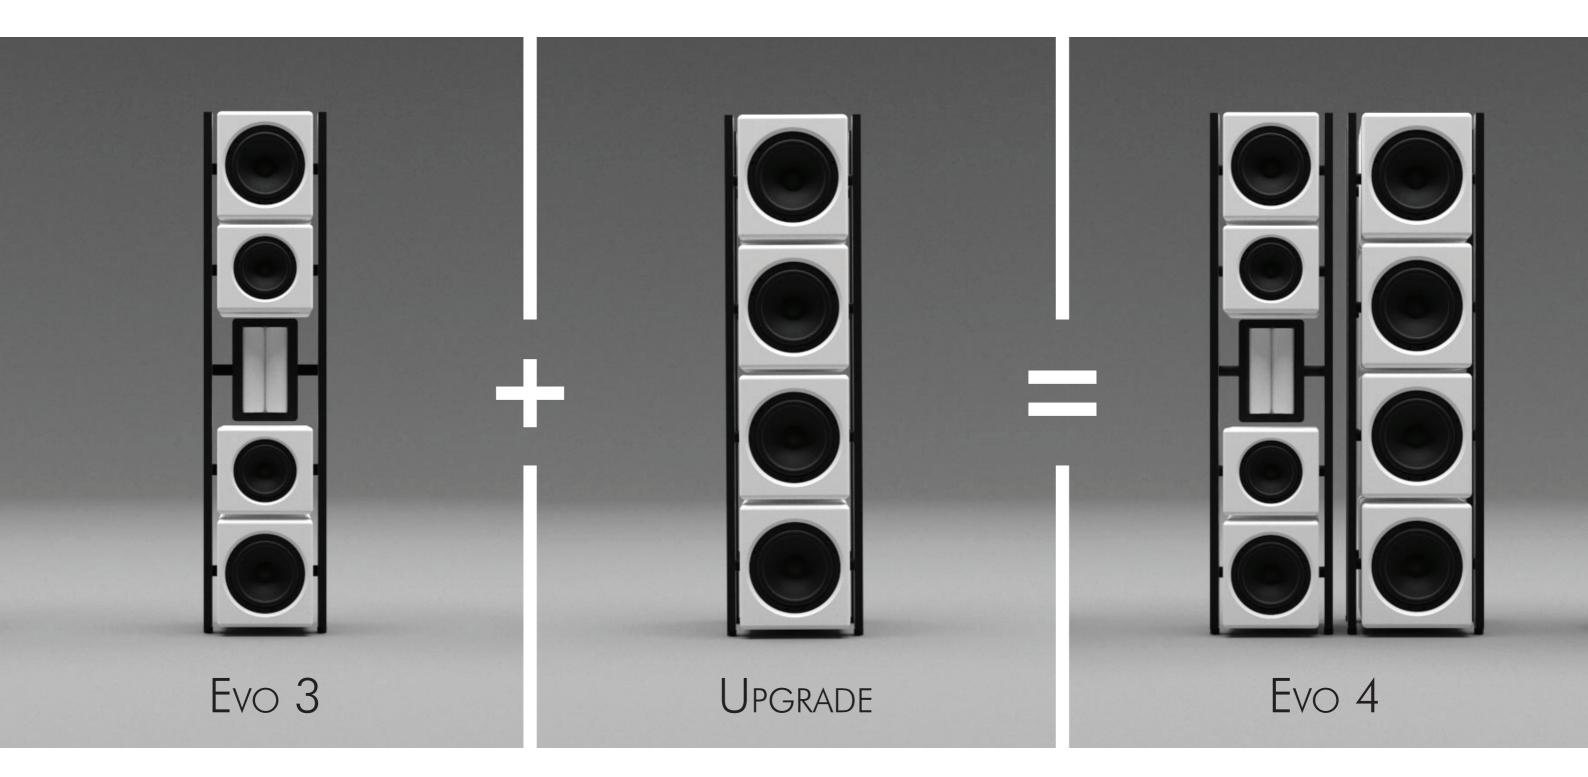

Duopole DS 400 Hz - 25 kHz 2x Low 22 cm 35 Hz - 400 Hz 2x Sub 28 cm 18 Hz - 35 Hz

Evo 3

Impedance 8 Ohms
Sensitivity 88 dB
Weight 122 kg
Dimensions 45 x 184 x 47 cm

 $(W \times H \times D)$

MAIN TOWER

Duopole DS 400 Hz - 25 kHz 2x Low 22 cm 35 Hz - 400 Hz 2x Sub 28 cm 18 Hz - 35 Hz

SUB TOWER

4x Sub 38 cm Amplification

15 Hz - 25 Hz 6000 W

Evo 4

MAIN TOWER

Impedance 8 Ohms Sensitivity Weight $(W \times H \times D)$

88 dB 122 kg Dimensions 45 x 184 x 47 cm

SUB TOWER

Impedance 4 Ohms 89 dB Sensitivity 273 kg Weight

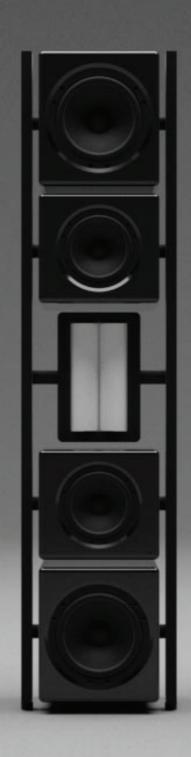

Dimensions 55 x 184 x 47 cm

 $(W \times H \times D)$

DECLINATIONS

Standard lacquer finish is available in all RAL colors, please consult us for all other finishes as piano lacquer, wood, aluminium...
