

PRESS RELEASE

For Immediate Release

Crystal Cable to debut Liberty Portable Series at High End Munich 2025

Atrium 4.1, Room F130 | May 15–18, 2025

Crystal Cable, renowned for its fusion of technical excellence and artistic elegance, is embarking on a new chapter in its history — taking high-end performance *anywhere*. At the High End Munich 2025 show, Crystal Cable will introduce the **Liberty Portable Series**, the brand's first dedicated product line for audiophiles and music lovers seeking uncompromised sound in portable audio.

For over two decades, Crystal Cable has been synonymous with advanced materials, elegant design, and state-of-the-art signal transmission. Now, this same legacy is being channelled into a world where music has become increasingly personal and mobile.

Introducing the Liberty Series — Connected to Music. Anytime. Anywhere.

The Liberty Portable Series is built around one simple philosophy:

To make portable listening as engaging and musically rewarding as a reference home system.

Each product in the Liberty range is crafted with bespoke metallurgy, precision insulation, and a luxurious yet lightweight construction — combining performance with convenience in the most elegant way possible.

The Liberty Collection includes:

- **Liberty**
Where performance meets simplicity. Using hair-thin proprietary silver-gold wires and Teflon® insulation, Liberty offers a clean, honest, and highly musical presentation. Perfect for everyday use by discerning listeners.
- **Absolute Liberty**
Greater precision, deeper connection. Using the highest purity Infinite Crystal Silver™ and refined geometry, Absolute Liberty enhances detail, realism, and texture for true audio enthusiasts.
- **Infinite Liberty**
The pinnacle of portable audio. Featuring double the conductors, Infinite Liberty delivers breathtaking dynamics, transparency, and immersive emotionality — for connoisseurs who desire the ultimate listening experience on the go.

All Liberty cables are available in configurations to match virtually any IEM or headphone connector, making them as versatile as they are beautiful.

A New Era for High-End Portability

Crystal Cable Portables represents a new way of thinking — where luxury and mobility coexist without compromise. Whether in the studio, travelling, or relaxing at home, these cables elevate every listening moment to reference level.

The **Liberty Series** will make its public debut at **High End Munich 2025**, and visitors are invited to join us in **Atrium 4.1, Room F130** to discover the next step in Crystal Cable's legacy — connected to music, anytime, anywhere.
