

aëdle launches first Wireless Headphones VK-X

VK-X is the first Wireless Headphones from Aëdle, enriching the VK Collection with a unique Sound & Design Piece, faithful to aëdle's values - Timelessness, Excellence and Exploration.

Paris, France - **VK-X** will be introduced on **Tuesday, June 19th** on **Crowdfunding Platform Indiegogo** and made available for preorder in a limited quantity of **1,000 units**.

Iconic and Timeless Design

Designed as a true Travel Instrument, VK-X pursues aëdle design philosophy based on the exclusive use of noble materials and secular manufacturing processes.

Wired & Wireless High Resolution - The best of both worlds

Featuring a USB-C port, VK-X houses a stereo advanced 24 bit high sound quality audio DAC for wired use and the best audiophile codecs (LDAC, APTX HD, AAC) for wireless use.

Exclusive Made To Order Service

VK-X users may benefit from aëdle's new Made-To-Order service with selected leathers and anodized aluminiums.
