MINGUS ORCHESTRA

NEW FOR 2019

The crown jewel of the Mingus series offers the strength and clarity that only Diamond drivers can. We forged our current design and technology in a beautifully formed Mingus cabinet. Employing technology and design cues from Coltrane and Heritage, it bridges the gap between both.

It uses 51mm and 20mm Diamond drivers. It's a 4-way speaker, designed with our first order crossover and the very highest quality components.

Mingus Orchestra has performance comparable to Coltrane and stand-alone elegance.

AT A GLANCE

Speaker (front)

- 4 x 8 " Aluminium sandwich
- 1 x 7 " Pure Ceramic
- 1 x 2 " Pure Diamond
- 1 x 0.75 " Pure Diamond

Speaker (back)

- 4 x 10 " Passive Aluminium sandwich
- First order crossover
- Cell drivers
- Jorma Design internal wiring (optional Statement)
