LIMITED EDITION

PRESS RELEASE

**EMERALD
BLUE**

**MUSTARD
YELLOW**

Two new Limited Edition colors

TRIANGLE brings color to your home decoration by launching two new AIO 3 finishes: **Mustard Yellow** and **Emerald Blue**.

Two bold colors to celebrate the end of 2019 in style.

These elegant fabrics are made by **Scandinavian manufacturer Gabriel**, recognized around the world for supplying top-quality fabrics to the most prestigious High-end furniture manufacturers. The new AIO 3 Limited Edition dares with colors and brings life to your home design, be it traditional, modern, Scandinavian, retro, chic or industrial.

This capsule collection is available in **limited quantities** of 200 pieces per color.

Trendy and Bold colors

The **Mustard Yellow** is warm and cheerful, creating a dynamic and bold contrast that will awaken your interior. **Emerald Blue** is an elegant mix of blue and green, soft and warm, it will bring an immediate feeling of comfort to your home.

An Elegant and Modern speaker

A perfect compromise between **size** and **performance**, the AIO 3 is a wireless speaker designed to bring music to a room of 15sqm or more. Stream all your music from your phone, tablet or computer thanks to Bluetooth and Wi-Fi connectivity. With the «Triangle AIO» app, you can create a multiroom network of up to 12 devices to broadcast music throughout your home. Access to millions of songs in High Resolution through a wide range of **streaming services** and internet radio stations available from the TRIANGLE AIO app. Enjoy your music whenever you want.

At the back of the AIO 3 you'll find a number of inputs such as optical, RCA 3.5mm and USB A which allow for connectivity to a wide range of audio-video devices.

Wi-Fi
(Multiroom)

USB & much more
(1/8 inch Jack...)

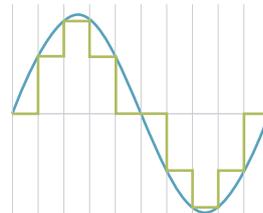

When High Fidelity meets High Resolution

AIO allows you to enjoy digital and wireless high-fidelity performance. Send a high-resolution music stream from your phone or tablet, with a sample rate of up to 24bits/196kHz similar to mastering quality.

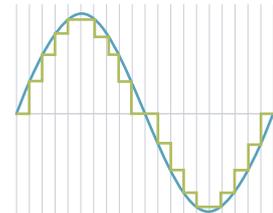

Discover all the fullness and depth of your favorite music.

Original Analog

CD Player

High Resolution

A dedicated app

The AIO application allows you to control and configure your AIO system directly from your mobile or tablet. Via the app, you can associate your different streaming application accounts (Deezer, Spotify, Tidal, Qobuz ...) and manage your music : choose to send your favorite song on all the speakers in your home, or to play different tunes in each room.

Designed specifically for streaming

And many more...
