

VEGA G1

Streaming DAC

Our classic DAC learned how to stream

The VEGA G1 preserves the sound you love of the classic VEGA, and adds the ability to stream from all your favorite sources of high-resolution digital music. Mix in the performance engineering, features, and looks of our G series and you've got a fantastic way to turn your hi-fi into a leading-edge digital streaming system.

VEGA G1 SPECIFICATIONS

Streaming Input	<i>DLNA media server TIDAL & Qobuz Internet Radio Roon Ready Spotify Connect</i>
File Format	<i>AAC, AIFF, ALAC, APE, DFF, DSF, FLAC, MP3, OGG, WAV, WV and WMA</i>
Sampling Rate	<i>PCM in 44.1KHz – 384KHz at 16 -32 bits DSD64 – DSD512</i>
Streaming Platform	<i>AURALiC Tesla with 1GHz quad-core processor 1GB system memory, 4GB data storage</i>
Digital Input	<i>Ethernet Streaming (Up to 384K/32bit, DSD512) USB Audio Device (Up to 384K/32bit, DSD512) AES/EBU, COAX, TOSLINK (Up to 192K/24Bit)</i>
Analog Output	<i>Balanced Output (THD < 0.00015%, DNR > 127dB) Single-Ended Output (THD < 0.00016%, DNR >124dB)</i>
Internal Clock	<i>Dual 72fs Femto Master Clocks Jitter-Free Operation</i>
Power Supply	<i>Dual Purer-Power internal linear power supply 10uV low noise design for audio circuits</i>
On-Device Display	<i>3.97-inch retina resolution display</i>
Control Software	<i>Lightning DS Roon 3rd party OpenHome control software</i>
Dimensions	<i>340mm*320mm*80mm (W*D*H)</i>
Weight	<i>7.0kgs</i>
